GENERAL INFORMATION REGARDING ANNUITIES.

Deferred Annuities are issued under two Plans, viz.: Plans 'A' and 'B.' On Plan 'A' it is provided that in case of the death of the annuitant before the annuity begins, the purchase money with compound interest thereon at three per cent per annum will be returned to the legal representatives of the annuitant. On Plan 'B' where the same annuity may be obtained for smaller payments, there would be no return of any portion of the purchase money.

On Plan 'A', 439 contracts have been issued; and on Plan 'B,' 93.

Payments may be made to the Department direct, or through the postmaster of any Money Order Office, and by him remitted to the Department. The postmaster is allowed a commission of one-third of one per cent on all amounts paid to him. An annuity may be purchased by or for any person between the ages of 5 and 85, but no annuity may be received before the age of 55.

The rights of an Annuitant are not saleable, or transferable, except that the Statute provides that the purchaser of an annuity may have a portion of it (not exceeding one-half) made payable to his wife or to her husband as the case may be. In the case of the purchasers of deferred annuities this is considered to be a most valuable privilege.

A number of employers are in communication with the Department as to a plan by which they may assist their employees in securing annuities, and the following table has been furnished by the Superintendent of Annuities as an example of the cost of an Annuity of $250, to begin at age 60, to men commencing to pay between the ages of 21 and 50, where the employer assists by a contribution of $10, on Plan 'B' irrespective of age, and the employee bears a part of the cost on Plan 'A' or 'B' as he may choose. A separate contract would be issued to each man.

EXAMPLES OF THE COST OF AN ANNUITY OF $250 WHERE EMPLOYER AND EMPLOYEE CO-OPERATE, ANNUITY TO BEGIN AT AGE 60, PAYMENTS TO BE MADE FROM COMMENCING AGE TO AGE 60.

1. Column 1 shows amount of Annuity which a payment by the Employer of $10 a year from commencing age to age 60 would purchase on Plan 'B', under which Plan there would be no return of any portion of purchase money should Annuitant die before 60.

2. Column 2 shows the amount remaining to be purchased by the Employee to bring Annuity up to $250.

3. Columns 3 and 4 show the annual rate to be paid on Plan 'A' or 'B' to purchase amount of annuity in column 2. (On Plan 'A' should Annuitant die before 60, all payments made with three per cent compound interest would be returned to the purchaser or his legal representatives.)

DEFERRED ANNUITIES GUARANTEED FOR 10 YEARS BUT PAYABLE THEREAFTER SO LONG AS ANNUITANT LIVES.

Yearly payments (which may be split up into weekly, monthly, quarterly or half-yearly amounts if desired without additional cost) required for the purchase of a Guaranteed Annuity of $100 beginning at age 55, 60, 65 or 70. In the event of death at any time before the first payment of Annuity falls due all payments made, with 3 per cent. compound interest, will be refunded to the heirs. In the event of death within the first ten years after the Annuity becomes payable the payments will be continued for the full ten years as the purchaser may direct. If the annuitant survives the 10 years the Annuity will be continued so long as the annuitant lives. The cost of each additional $100 up to $600 is at same rate. The Annuity would be paid in instalments of $25 every three months.

Example : A man aged 20 purchasing a Guaranteed Annuity of $100 to begin at age 60 would pay in $11.14 a year for 40 years, or a total of $445.60.

If he should die at any time before the Annuity fell due, all that he had paid in with 3 per cent. compound interest would be returned to his heirs.

If he should die after the last premium had been paid and just before the Annuity fell due, the Government would return to his wife or heirs the sum of $865.17.

If he died after receiving one payment of Annuity the Government would pay to his wife or heirs $25 every three months until the whole of the $1,000 guaranteed had been paid.

If he survived the 10 years, the $100 a year, which is the annual income on a deposit of $3,333.33⅓ in the Post Office Savings Bank, would be paid to himself so long as he might live if he should live to be 100 or over.

TRADE COMMISSIONER SERVICE.

Transfers and Appointments.

The features of the Canadian Trade Commissioner Service during the year were the opening of the new offices at Berlin, Germany, and Auckland, New Zealand. Two minor commercial agency branches in Antigua and St. Kitts were closed.

One transfer and two new appointments were therefore necessary. Mr. W. G. Fischer was transferred from Glasgow to the Berlin office and the vacancy at Glasgow filled by the appointment of Mr. J. T. Lithgow. Upon the death of the late Mr. J. S. Larke, the Dean of the Trade Commissioner Service, the Sydney office was closed and the jurisdiction of Mr. D. H. Ross extended throughout Australia. New Zealand was made a separate district and Mr. W. A. Beddoe selected to take charge of the Auckland office.

The Trade Commissioner Service now comprises 19 Commissioners and 4 Commercial Agents.

At Keewatin, Ontario, the Lake of the Woods Milling Company have two milling elevators having a capacity of 750,000 and 550,000 bushels respectively, and at Kenora the Maple Leaf Flour Mills Company has one of 400,000 bushels capacity.

There are also the Eastern Transfer Elevators numbering 24 with a combined capacity of 20,535,000. They are situated at the Georgian Bay and Lake Huron Ports, Port Colborne, Kingston, Prescott, Montreal, Quebec, West St. John, St. John and Halifax.

The greater portion of the grain taken into the hundreds of smaller elevators in the West and also shipped from loading platforms at country points there, finds its way into the terminals at the head of Lake Superior, and is shipped from there to its ultimate destination, the bulk for the crop year going to Georgian Bay and Lake Huron Ports, Montreal, Kingston and Prescott, although over 25,217,525 went to Buffalo and other United States ports. In addition to this there was shipped to Duluth by rail over the Great Northern 4,658,920 bushels. This latter quantity would be shipped out in bond to Great Britain by way of Buffalo, Montreal, Kingston or Depot Harbour.

The total shipments by vessel and rail from Fort William and Port Arthur, since September, 1899, are shown elsewhere in statement No. 19, pages 38-41.

Interior or Country Elevators.

In the three provinces of Manitoba, Saskatchewan and Alberta (including six for British Columbia) there are 1,867 elevators; one has a capacity of 400,000 bushels, one 330,000 bushels, one 300,000, three 250,000 bushels, one 235,000

bushels, one at 215,000 bushels, one at 200,000 bushels, one at 160,000 bushels, two at 150,000 bushels, two at 125,000 bushels, two at 110,000 bushels, one at 103,000 and five at 100,000 bushels capacity.

They run all the way from 4,000 to 400,000 but the bulk of them are of 25,000 or 30,000 bushels capacity. Excluding the twenty-two (22) that run from 100,000 upwards the average for the remaining 1,845 would be 28,870 bushels capacity.

Warehouses.

The 32 warehouses now operated or built have a total capacity of 304,500 bushels, the one with the greatest capacity containing 45,000 bushels and the least 2,000 bushels, the average capacity being 9,515 bushels.

While the percentage of surveys held in 1908 and 1909 were quite low, those for 1910 are considerably lower, and those which show the "Inspector's grade not sustained" are remarkably low.

Considering the great number of cars inspected for the years above shown, and the variety of grades for each kind of grain, the small number of surveys held, and the low percentage of those not sustained, the results speak favourably for the manner in which the work of inspection is performed.

No. 24.—Rates on Grain by Vessel from Fort William and Port Arthur to Georgian Bay Ports and Buffalo, Kingston and Montreal, Season of Navigation 1909 (April 13 to December 6, both inclusive.)

As in 1908 and 1909 there was no fixed tariff for the season.

Montreal—Rates opened firm at 6c. per bushel on wheat for first trips; for second trips it quickly went to 5c. per bushel. Early in June it dropped to 4c. per bushel, where it remained until the beginning of July, when the low rate of the season, 3c. for wheat, was charged.

In August the rate went back to 3½c. per bushel. At beginning of September it went to 4c. later on to 5c. During October and November the rate fluctuated between 6 and 7½c.; the top rate being 8c. which was charged early in November.

Kingston—Direct quotations were very limited during the season, most of the business being moved on a through rate to Montreal, the rates following closely those of Montreal, there being a reduction of 1½c. per bushel in the spring and fall. During the summer months there was practically no Kingston business done.

Rates to Georgian Bay Ports opened at 2c. but quickly declined to 1½c.; by first of May they had gone to 1¼c. In July grain was carried at 1c.; this latter rate continued until September. Early in September it went to 1⅛c. and during the latter part of the month to 1¼c. per bushel. This rate held until practically the close of navigation.

Rates to Buffalo were much the same as to Bay Ports although wheat was carried to Buffalo at 1c. per bushel as late as October 15th. This lasted until practically the close of navigation, when 2c. was paid on cargoes for winter storage. After the close of the regular season a few cargoes were carried to Bay Ports and Buffalo at 3c. per bushel.

Taking the whole situation the season through, the rates are stated as being the lowest in the history of grain transportation via lakes.

the trade carried on by the said steamships and such other customs certificates documents and evidence as may be necessary or as may be reasonably required by the minister to prove the performance of the service herein contracted for and to enable the minister to judge as to whether this agreement is being properly and faithfully carried out and performed and the furnishing of such certificates documents information and other evidence as hereinbefore specified shall be a condition precedent to the payment of the subsidy hereinafter provided or any portion thereof.

Amount of subsidy· £37,090 18s. 2d. per annum.

22. That the minister shall pay to the contractors subject to their faithful performance of all covenants, agreements and stipulations to be performed on their part, pursuant to this agreement, a subsidy of thirty-seven thousand and ninety pounds eighteen shillings and two pence (£37,090 18s. 2d.) per annum, in proportionate instalments for each and every round trip performed by each of the said steamships in accordance with the intention of this agreement, provided, however, that no amount or instalments of subsidy shall be payable at any time unless it appears to the satisfaction of the minister that up to the time of such payment there has been no breach on the part of the contractors of any of the covenants, provisions or stipulations of this agreement.

NOTE.—In addition to the above subsidy, the Australian government contributes £26,626 16s. 11d., and the government of Fiji, £2.282 4s. 11d. per annum to this service, making a total subsidy of £66,000 per annum.

Deductions from Subsidy.

23. If at any time or times the mails required to be conveyed by the contractors under this agreement between Vancouver and Sydney and vice versa shall not be conveyed from Vancouver to Brisbane, or from Brisbane to Vancouver, within the respective periods of transits hereinbefore prescribed in that behalf, then, and so often as the same shall happen there shall be deducted from the subsidy which but for this provision would be payable to the contractors a sum of thirty pounds (£30) for every complete period of twenty-four hours by which the time actually occupied in the conveyance of such mails from Brisbane to Vancouver, or Vancouver to Brisbane, as the case may be, shall have exceeded the period of transit hereinbefore prescribed in that behalf, provided always, that no deductions shall be made from the said subsidy by reason of any such default or failure as in this clause mentioned which may be proved to the satisfaction of the minister to have arisen wholly or in part from any cause or causes altogether beyond the control of the contractors.

Deductions from subsidy are not penalties.

24. Each of the deductions hereinbefore mentioned and hereby agreed to be made shall be made and the subsidy be reduced accordingly although no damage or loss shall have been sustained by reason of or in connection with such default and (except in such cases as in the last preceding clause hereof expressly provided) from whatever cause or causes any such failure or default shall have arisen and no such deduction shall in any case be deemed to be a penalty or in the nature of a penalty, and the payment by the minister of what shall from time to time remain due in respect of the said subsidy after making any such deductions as aforesaid shall in no case prejudice the right of the minister to treat the failure of the contractors to provide an appropriate vessel at any appointed place or time or to perform any service at or within the appointed period as a breach of this agreement.

Termination of Agreement.

25. This agreement shall remain in force until thirteen round voyages have been performed according to the true intention of these presents, provided that the minister shall have the right at any time by giving notice in writing under his hand, to determine this agreement and every matter and thing herein contained if it shall appear to him that there has been any material breach on the part of the said contractors of any of the covenants, stipulations, agreements or provisions herein contained and entered into on the part of the contractors, and it is hereby declared and agreed that the minister shall at all times be the sole and final judge as to whether there has been any such breach and his determination shall be final and conclusive.

Substitution for Disabled Steamers.—No Member of Canadian House of Commons to be Admitted to Share of Agreement.

26. Provided, however, and it is the true intent and meaning of these presents that if the said steamships any or either of them or any steamship replacing either of such steamships under this proviso shall be by the perils of the sea or other unavoidable casualty, lost, destroyed or temporarily disabled from performing their voyages according to the true intent and meaning of the agreements, stipulations and provisions herein contained, such loss or disability shall not be deemed to be a breach of these presents or any matter or thing herein contained, but the said contractors shall in such case, as soon as reasonably may be, having regard to the circumstances, replace the said steamships or steamship so lost or destroyed by others or another of equal class, speed, equipment, character and capacity to the satisfaction and approval of the minister, or to the like satisfaction and approval repair the damage done in case the said steamship has been only temporarily disabled and continue the said service herein contracted for with such substituted or repaired steamship with as little loss of time as possible under all the circumstances, provided always that there shall be no payment of any subsidy in respect of any voyage not actually and fully performed, provided further that the minister shall be the sole judge and have the final right of determination as to whether any suspension or temporary discontinuance of or delay in the said regular four-weekly service has been actually caused by the perils of the sea or other unavoidable casualties within the meaning of this proviso and his finding and determination thereon shall be conclusive. It is a condition of these presents that no member of the House of Commons of Canada shall be admitted to any share or part of this contract or agreement nor to any benefit to arise therefrom.

Sailings.

2. The said service shall consist of a sailing on or about the fifteenth day of each month from a Canadian port as hereinbefore provided during the continuance of this contract as follows :

(*a*) During the season of open navigation from the port of Montreal in the province of Quebec, to the ports, or any three of the ports, of Auckland, Wellington, Littleton and Dunedin in New Zealand, and the ports of Melbourne and Sydney in Australia, calling at such other ports in New Zealand or Australia as the contractors may desire.

(*b*) During the season of closed navigation on the River St. Lawrence from the Port of St. John, in the province of New Brunswick, calling on each voyage outward at Halifax, in the province of Nova Scotia, and thence to the said ports in New Zealand and Australia.

Capacity and Speed of Steamers.

3. In addition to any other provisions herein stipulated, the contractors shall provide steamships upon the service herein defined with a carrying capacity of not less than 7,500 tons at 40 cubic feet to the ton, which steamship shall be capable of steaming at an average speed of ten knots per hour.

Freight Rates.

4. It is hereby understood and agreed that the rates charged by the contractors upon all classes of freight from the Canadian ports of departure to any of the said ports in New Zealand or Australia shall not be in excess of the rates charged upon the same classes of goods from any port of the United States on the Atlantic seaboard to New Zealand and Australia on any regular cargo or passenger steamship line, and no discrimination of any kind whatsoever, direct or indirect, shall be permitted against Canadian merchants or shippers; and it is further agreed and understood that the freight rates on through bills of lading *via* any Canadian Atlantic seaport from any place in the province of Ontario or Quebec, or from any Canadian point, shall in no case be greater than from similar points in the United States upon freight routed *via* any United States port on the Atlantic seaboard, and it is further understood and agreed that the said steamers shall not carry on any voyage run under the terms of this contract either deals or lumber or timber to a greater extent than fifty per cent of the total quantity of the cargo carried on such voyage, and such quantity only in case other Canadian products are not offering or cannot be obtained. Provided, however, that in the event of other cargo not being

obtainable, satisfactory evidence of that fact being furnished to the minister, then the contractors shall be allowed to make up the balance of the cargo with deals, boards or timber.

Cold Storage.

5. The steamships engaged in the said service shall be suitably fitted with ample cold storage accommodation and appliances to meet all reasonable demands, which cold storage shall from time to time be the best known for the purpose; provided the contractors shall from time to time in the event of goods offering for shipment provide such further cold storage accommodation as shall be sufficient to meet the requirements of the trade offering.

Deduction for short cargo.

6. The contractors further covenant and agree to obtain and transport from Canada to New Zealand and Australia an average cargo every twelve months of 5,000 tons on each outward trip on and after the first sailing from St. John in the autumn of the present year, failing which the government shall deduct from the subsidy otherwise payable at the end of each twelve months following and including the said first sailing from St. John in the autumn of the present year $2 per ton for every ton short of 60,000 tons, measurement or weight.

CANADA AND GREAT BRITAIN.

ALLAN LINE.

Contract No. 1.

Vote 174.—Ocean and Mail Service between Canada and Great Britain.

1910-11. . . . . $600,000
1911-12. . . . . $600,000

The service, as at present run, is under terms of a contract entered into with Messrs. H. & A. Allan, as representing the Allan Line Steamship Company, Limited, bearing date of January 19, 1906, and which expires on May 1, 1912. The principal provisions *inter alia* are as follows:—

Period of Contract.

1. 'The contractors owing or controlling in their capacity aforesaid the steamers *Virginian* and *Victorian,* each of guaranteed seventeen knots effective speed, and other steamers which may be approved by the minister, and being about to contract for the construction of two other steamers of guaranteed eighteen knots effective speed, to be delivered and ready to commence running on the service hereinafter described on or before the first of August, 1907, will, on the first day of August, 1906, commence to perform and hereafter will carry on the service hereinafter described, that is to say, a regular weekly steamship service between Canada and Great Britain until the first day of May, 1912, unless sooner terminated under the provisions of section 28 hereof.

Steamers to be Employed.

2. 'Until the said eighteen knot steamers are ready to commence running, the service shall be performed by the steamers *Victorian, Virginian, Tunisian,* with a fourth steamer equal in effective speed and otherwise to the *Tunisian,* and such other steamers as may be necessary for the effectual running of the service, and as may be approved by the minister.

3. 'The contractors agree to build and place in the service by August 1, 1907, two steamers guaranteed to develop twenty knots on their trial trip on the measured mile, and of guaranteed eighteen knots effective speed.

Number of voyages per annum.

4. 'The steamers *Victorian, Virginian, Tunisian,* with a fourth steamer equal in effective speed and otherwise to the *Tunisian,* and such other steamers as may be approved by the minister shall, until the two eighteen-knot steamers have been placed in the service, perform ten complete round voyages per annum each, and after the two eighteen-knot steamers have been placed in the service, they and the *Victorian* and the *Virginian* shall each perform ten complete round voyages per annum.

Subsidy: Amount per voyage.

The subsidy is as follows:—

£2,500.

(*a.*) For each complete round voyage between Liverpool and Rimouski or North Sydney, performed at the rate of eighteen knots per hour, 2,500 pounds sterling.

£3,000.

(*b.*) For each complete round voyage between Liverpool and St. John or Halifax, performed at the rate of eighteen knots per hour, 3,000 pounds sterling.

£2,000.

(*c.*) For each complete round voyage between Liverpool and Rimouski or North Sydney, performed at the rate of seventeen knots per hour, 2,000 pounds sterling.

£2,500.

(*d.*) For each complete round voyage between Liverpool and St. John or Halifax, performed at the rate of seventeen knots per hour, 2,500 pounds sterling.

£1,000.

(*e.*) For each complete round voyage performed at the rate of fifteen knots per hour, 1,000 pounds sterling.

Time of Payment.

Such subsidy being payable at the end of each quarter for all voyages fully run and completed during each quarter, that is, at the close of the months of September, December, March and June, during the continuance of this contract; provided, however, that no amount or instalment of subsidy shall be payable or paid at any time unless it appears to the satisfaction of the minister that up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and that all provisions and stipulations as to dates of sailing, speed and duration of voyages, have been in all respects faithfully observed and carried out according to the true intent and meaning of these presents; and it is a further condition of this contract that the contractors shall, on the completion of each voyage, furnish the minister with such certified extracts from the steamer's log, together with track charts of the voyage, or any other information required, as will enable him to determine whether the service on such voyage has been within the requirements of this contract.

Withdrawal of Vessels.

(*a.*) Provided always, that at no time during the continuance of this contract, except for thirty days between any fifteenth day of December and the following fifteenth day of February, shall more than two vessels of the seventeen and eighteen knot class be withdrawn at the same time from the service hereinbefore described.

Winter Service.

6. 'It is further understood and agreed that the service to be performed during the season of closed navigation on the River St. Lawrence shall be as follows:—

'Between the port of Liverpool and the ports of Halifax and St. John, one of the said steamers sailing on each westbound trip from Liverpool each Thursday, or on such other day as may be approved by the minister, for Halifax and St. John, and calling at Moville for the embarkation of the mails, if the call at that port be adhered to, and at Halifax for the landing of such mails; and one of the said steamers sailing on each eastbound trip from St. John each Saturday, or on such other day as may be approved by the minister, for Liverpool, calling at Halifax for the embarkation of the mails, and at Moville for the landing of such mails, if the call at that port be adhered to; it being understood and agreed that if from any cause it should prove impossible for the steamers performing the service to secure sufficient cargo at St. John during the winter season, or if at any season there is inadequate accommodation in the harbour at St. John for any of the said steamers, the minister may, in his discretion, relieve the contractors from the obligation of proceeding to or starting from that port on any particular voyage or voyages.

Summer Services.

7. It is further understood and agreed that the service to be performed during the season of open navigation on the River St. Lawrence shall be as follows:—

(*a.*) 'On all voyages from Montreal and Quebec eastward to Liverpool the steamers shall be at liberty to proceed by the way of the Straits of Belle Isle, and upon all such voyages the port of call below Quebec shall be Rimouski for the embarkation of the mails and at Moville (if the Moville call be adhered to) for the landing of the mails.

(*b.*) 'On all voyages westward from Liverpool the steamers shall call at Moville for the embarkation of the mails (if the Moville call be adhered to) and shall be at liberty to proceed by way of the Straits of Belle Isle, and on all such voyages the port of call below Quebec shall be Rimouski for the landing of the said mails.

(*c.*) 'On all voyages eastward or westward from or to Montreal and Quebec via Cape Race the port of North Sydney may, at the option of the minister, be substituted for the port of Rimouski for the embarkation or landing of the said mails.

Tenders at Rimouski and North Sydney.

8. 'It is understood and agreed that at Rimouski and North Sydney the mails are to be delivered to and received from tenders supplied by the postal authorities of Canada.

Distances.

9. For the purpose of this contract the following shall be understood to be the distances between the points hereinafter mentioned, *i.e.*, between Moville and Rimouski via Belle Isle, 2,300 miles, and between Moville and Rimouski via Cape Race, 2,500 miles, except when it may become necessary for steamers to deviate to the southward to avoid ice, in all which cases the actual number of miles travelled upon the voyage, not exceeding in any instance 2,800 miles, shall for the purposes of this contract be taken to be the distance aforesaid; and between Halifax and Moville, 2,255 miles,

except when it may become necessary for steamers to deviate as aforesaid, in all which cases the actual number of miles travelled upon the voyage, not exceeding in any instance 2,550 miles, shall for the purposes of this contract be taken to be the distance aforesaid; and between Moville and Sydney, 2,105 miles, except when it may become necessary to deviate as aforesaid, in all which cases the actual number of miles travelled upon the voyage, not exceeding in any instance 2,405 miles, shall for the purposes of this contract be taken to be the distance aforesaid.

Cold Storage.

10. 'It is understood and agreed that each steamer while run under this contract shall be fitted with adequate cold storage accommodation to the satisfaction of the minister.

Average rate of speed. (See also clause 5).

11. 'The contractors bind themselves to run each of the three classes of steamers hereinbefore referred to at the average rate of speed for each voyage as specified in clause 5, in performing the several voyages from port to port, unless in the opinion of the captain of said steamer the said rate of speed would endanger life or the safety of the ship, or unless the speed of the ship is delayed by reason of fog, ice, snow or stress of weather, or by assisting ships in distress, in any of which events the contractors shall submit to the minister the captain's explanation of the cause of the delay, and such other evidence as the minister may require to enable him to determine and the minister upon such explanation and evidence shall determine whether the circumstances were such as justified the captain's reduction of the speed of the voyage or sufficiently explain the delay in completing the voyage, and in all cases where such failure to maintain the said average rate of speed is deemed justifiable or sufficiently explained the minister may, in his discretion, omit the voyage in question in calculating the average for the quarter in which such voyage took place, or may deduct the period of such delay in calculating such average.

Deductions for delays.

12. 'If during any quarter the mails carried by the steamers *Victorian* and *Virginian* and the two eighteen-knot steamers are not conveyed from port to port at the average rate of the speeds specified in clause 5 for the said four steamers after omitting voyages and deducting delays as provided in the last preceding clause, or if during any quarter the mails carried by the fifteen-knot steamers required for the carrying out this contract are not conveyed from port to port at the average rate of speed specified in clause 5 for the said fifteen-knot steamers, after omitting voyages and deducting delays as provided in the last preceding clause, then, and so often as the same shall happen, the contractors shall furnish to the minister the certified logs of the captains of the steamers showing the causes of the delays, and there shall be deducted from the subsidy payable to the contractors for the said quarter a sum equal to five per cent of such subsidy for every one-quarter knot by which the average speed actually made has fallen below the average speed specified in clause 5 of this contract.

Average rate of speed between December 15 and February 15.

Provided, however, that for the period between any fifteenth day of December and the following fifteenth day of February when steamers of different classes are employed in the service, the average rate of speed shall be arrived at by taking the averages of the speeds of all the steamers employed in the service during the said period.

Maximum deduction.

'Provided further, that the total amount of the sum deducted in respect of such default or failure of either of the two classes of steamers mentioned in this clause shall not exceed the full amount of the subsidy allowed the said class for the quarter or period in question.

Subsidy for fifteen-knot Steamers.

13. 'Subject to the provisions of clause 11 hereof, the other steamers required for the carrying out of this contract, and which may from time to time be approved by the minister as provided in clause 2 hereof, shall when in service be entitled to receive a subsidy which will bear the same proportion to the sum of £1,000 as the actual speed made by the said steamers will bear to the speed of fifteen knots per hour.

Freight and passenger rates.

14. 'It is further understood and agreed that the tolls to be charged in the way of either freight or passenger rates between ports on both east and westbound trips shall always under substantially similar circumstances and conditions, be charged equally to all persons, and at the same rate, whether by weight or otherwise, in respect of all traffic of the same description and receiving in carriage the like accommodation; and further, that no toll shall be charged which discriminates against Canadian merchants or shippers or against emigrants to Canada.

Provisions for renewal of Contract.

15. 'If the contractors comply with the terms of this contract then at the expiration hereof His Majesty will enter into a new agreement with the said contractors for a further period of five years for payment to the contractors of such subsidy as His Majesty may then be prepared to pay to any one, provided the contractors by such new agreement will then undertake to perform such service as His Majesty may then require during the said new five-year term, in such manner and upon such conditions as His Majesty may then prescribe.

Termination of Contract.

Section 28, referred to in section 1, reads as follows:—

28. 'It is declared to be the true intent and meaning of these presents that the minister shall have the right at any time during the continuance of this contract, upon thirty days' notice in writing to the contractors, their successors or assigns, to terminate this contract, and every matter and thing herein contained, if it shall appear to the minister that there has been any breach on the part of the contractors, their successors or assigns, of any of the covenants, agreements, stipulations or provisions herein contained and entered into on the part of the contractors; and it is declared and agreed that the minister shall at all times be the sole and final judge as to whether there has been any such breach, and his decision shall be absolute, final and conclusive.'

Vote 228.—Steam service between Victoria and San Francisco.

1910-11 . . . . . $3,000
1911-12 . . . . . $3,000

This service is one sense run under the terms of the Act of Confederation, which provided that a steam service should be maintained between Victoria and San Francisco, which, at that time, was the only mode of travel or of transportation of mails; but for some years past the necessity for the service as a mail route has ceased to exist, as letter mails are invariably carried by rail, and only small quantities of newspapers and similar matter are carried by the steamers.

The service at present is run by the Pacific Coast Steamship Company of San Francisco, represented by Messrs. R. P. Rithet & Co., Ltd., Victoria, B.C., under terms of a contract bearing date February 23, 1910, and which expires March 31, 1913. The principal provisions, aside from those common to all contracts, are as follows:—

Period of Contract.

1. The contractors will, on or before the first day of April in the present year, place their steamers, the *Queen,* of 2,727 tons; the *City of Puebla,* 2,623 tons, and the *Umatilla,* of 3,069 tons register, or such other steamers as may be from time to time approved by the minister, on a route between the city or port of San Francisco aforesaid and the city or port of Victoria also aforesaid, and will from and after the said date establish and maintain a regular service between the cities or ports aforesaid, sailing from and returning to each at intervals of not less frequency than seven days, and carry on such service until the thirty-first day of March, one thousand nine hundred and thirteen, unless this contract is sooner terminated under the provisions of section 16 thereof, or unless the said steamers should, prior to that date, discontinue regular calls at Victoria aforesaid, in which case this contract shall thereupon determine and cease to have effect.

Subsidy: $3,000 per Annum.

The subsidy is at the rate of three thousand dollars ($3,000) per annum, payable as follows, viz.: $1,000 on the first days of August and December next following the date of these presents, and $1,000 on April 1, 1911, and continue the said payments upon the first days of the said months occurring during the further continuance of this contract.

This service is run under contract between the Imperial government and the Canadian Pacific Railway Company, bearing date October 12, 1908, covering a period of service from April 7, 1908 to April 6, 1911.

Aside from the usual requirements, the present contract provides among other things as follows:—

Frequency of Service—Terminal ports.

2. 'Subject to the provisions of this agreement the company shall and will during the continuance of this agreement at their own costs and charges in all respects convey or cause to be conveyed once in every three weeks during the summer season, and once in every four weeks during the winter season in each direction all mails which the postmaster general or any of his deputies, officers, servants or agents shall from time to time require to be conveyed in either direction between Liverpool in England and the port of Hong Kong in China and between the several ports and places en route hereinafter specified. Such conveyance shall be effected by way of Halifax, St. John, Quebec or Rimouski (as hereinafter provided) in the Dominion of Canada and the port of Vancouver in the same Dominion, and shall be effected between Halifax, St. John, Quebec or Rimouski (as the case may be) and the said port of Vancouver by means of railway trains and between Liverpool and Halifax, St. John, Quebec or Rimouski (as the case may be) and between the said port of Vancouver and the said port of Hong Kong by means of mail ships. All such trains and mail ships respectively shall be provided by the company and such conveyance shall be conducted throughout as one continuous and complete service, and the company shall be responsible for the safe conveyance and delivery of the mails by means of such trains and mail ships.

Summer and Winter Ports in Canada.

3. 'Subject to the provisions of this agreement all mails to be conveyed by the company in pursuance of the agreement by means of railway trains shall be conveyed over the railways of the company during the summer season from and to Quebec or Rimouski direct to and from the mail ships to be despatched from and to arrive at the said port of Vancouver; and during the winter season from and to Halifax or St. John direct to and from the said mail ships at the said port of Vancouver.

Manner of Conveyance of Mails.

5. 'Subject to the provisions of this agreement, the conveyance of the mails between Liverpool and Hong-Kong shall be effected by the company in the following manner :—

(1) 'On the journey from Liverpool to Hong-Kong, one of the mail ships shall put to sea from Liverpool at the time appointed by the Postmaster General, and shall proceed on her voyage to Halifax, St. John, Quebec or Rimouski (as the case may be). At Halifax, St. John, Quebec, or Rimouski (as the case may be) the company shall transfer the mails to one of the trains to be provided by the company. The said train shall forthwith start and shall proceed to the said port of Vancouver, stopping at such places as the company shall appoint. At the said port of Vancouver, the company shall transfer the mails to one of the mail ships, which shall then forthwith put to sea, and proceed on her voyage to Hong-Kong, touching or calling at the several ports or places hereinafter mentioned.

(2) 'On the journey from Hong-Kong to Liverpool: The service above described shall be reversed and the mails conveyed in manner aforesaid (*mutatis mutandis*) in the contrary direction.

(3) 'On both journeys: The company shall at each of the ports hereinafter specified at which the mail ships shall call or stop or from which they shall start, and at each of the places at which trains shall stop or from which they shall start, accept such mails as shall under the provisions hereof be there tendered to them for conveyance, and deliver thereat such mails as shall under the provisions hereof have been entrusted to them for such delivery.

Ports of Call in China and Japan.

6. On the voyages in both directions between Vancouver and Hong-Kong the mail ships shall call at Yokohama and Shanghai, and may also (at the option of the company) call at the ports of Victoria, Nagasaki, Shimidzu and Hiogo (Kobi), and at Amoy or other China or Japan ports.

Contract Time for the Conveyance of Mails.

7. 'All mails to be conveyed under the provisions of this agreement by such trains and mail ships respectively as aforesaid from Liverpool to the port of Hong-Kong, or from Hong-Kong to Liverpool, shall be so conveyed by the company during the continuance of this agreement within the complete and entire periods next hereinafter mentioned (that is to say) when the conveyance shall be by way of Quebec or Rimouski within a total period of 818 hours, and when the conveyance shall be by way of Halifax or St. John within a total period of 853 hours, which said periods respectively shall be calculated in the manner hereinafter mentioned or specified, and shall respectively include all stoppages of the mail ships and trains.

Conveyance of Mails between United Kingdom and Canada.

11. 'In addition to the services above described the company shall, without further payment than the subsidy hereinafter mentioned, convey by any of their steamships or other vessels plying between any port or ports in the United Kingdom and any port or ports in the Dominion of Canada any mails which the Postmaster General may tender for conveyance by such vessels between any ports or places (including ports of departure and destination) on the routes thereof respectively.

Subsidy: £45,000 per annum.

39. 'In consideration of the covenants and agreements herein contained and on the part of the company to be observed and performed, and of the due and faithful performance by the company of all the services under this agreement, there shall be payable to the company during the continuance of this agreement (out of such aids or supplies as may from time to time be appropriated by parliament for that purpose) a yearly subsidy or sum after the rate of £45,000 per annum, or (in the event of any such default or failure as hereinafter mentioned) so much of the said subsidy or sum as shall remain payable in respect of any year after making such deductions therefrom (if any) as hereinafter in that behalf mentioned in respect of any such default or failure.

Deductions from Subsidy.

40. 'If at any time the company fail to provide a mail ship at the port of Liverpool or Hong-Kong, ready to put to sea, on and at the appointed day and hour, or if such mail ship fail to start or put to sea on and at the appointed day and hour or so soon thereafter (regard being had to practical considerations) as the anchor of the mail ship can be weighed or the ship loosed from her moorings, then and so often as any such default shall happen there shall be deducted from the subsidy which would in the absence of any such default be payable to the company for the current year the sum of £500, and also the further sum of £100 for every successive 24 hours which shall elapse until such mail ship actually starts or proceeds to sea on the appointed voyage in pursuance of this agreement. Provided always, that the total amount of the sums deducted as last aforesaid shall not in the aggregate exceed by a sum greater than the sum of £500, that part of the said subsidy of £45,000 for the current year which shall be applicable to the whole journey, reckoned from the port of departure to the port of arrival, in respect of which default shall have been made.

41. If at any time or times the mails shall not be conveyed from Liverpool to Hong-Kong or from Hong-Kong to Liverpool as aforesaid within the respective periods of transit hereinbefore stipulated in that behalf, then and so often as the same shall happen there shall be deducted from the subsidy, which but for this provision would have been payable to the company for the current year a sum of £100 for every complete period of 12 hours by which the time actually occupied in the conveyance of such mails shall have exceeded the period of transit hereinbefore stipulated in that behalf respectively. Provided always, that the total amount of the sums deducted in respect of any such default or failure as hereinbefore mentioned in the delivery of mails shall not exceed that part of the said subsidy of £45,000 for the current year, which shall be applicable to the journey in respect of which such default or failure occurs.

Provided also, that no such deductions as in this clause mentioned shall be made in respect of any such default or failure as aforesaid if the company shall prove to the satisfaction of the Postmaster General that such default or failure arose from any cause or causes altogether beyond the control of the company.

Manner and Time of Subsidy Payments.

43. (1) 'Subject to the provisions herein contained, the said subsidy shall be paid by equal quarterly payments on or as soon as conveniently may be after the days hereinafter in this article mentioned.

(2) 'All accounts in relation to the said subsidy, and any deduction therefrom or additions thereto as hereinbefore provided, shall be made out and settled quarterly up to and on or as soon as conveniently may be after the 31st day of March, the 30th day of June, the 30th day of September and the 31st day of December in each

year, and the amount or balance (if any) which shall be justly due to the company on each such quarterly account shall be paid by the Postmaster General out of such aids or supplies as aforesaid upon the settlement of such account; and for the purposes of such accounts, and subject as aforesaid the said yearly subsidy of £45,000 or any increased or decreased subsidy which may become payable under or by virtue of any of the provisions herein contained shall be deemed to accrue from day to day subject to the liability of the same to be altered by such additions or deductions as aforesaid.

Termination of Agreement.

44. 'This agreement shall be deemed to have commenced on the 7th day of April, 1908, and shall continue in force until the 6th day of April, 1911, and shall then absolutely determine.

Canadian Proportion of Subsidy.

'Of the above-mentioned subsidy of £45,000 per annum, Canada contributes £25,000 and Great Britain £20,000.

CANADA AND FRANCE.

Contract No. 32.

H. AND A. ALLAN.

1910-11.. . . . . .$200,000
1911-12.. . . . . .$200,000

This service is performed by Messrs. H. and A. Allan, of Montreal, under terms of a contract bearing date of October 12, 1909, which expires on the opening of navigation in 1911. The principal provisions, aside from those common to all contracts, are as follows:—

Service—Speed.

1. The contractors owning and controlling in their capacity aforesaid, the steamships *Pomeranian, Sardinian, Corinthian* or *Sicilian,* will establish upon the opening of navigation in the year next succeeding the date of these presents (and with the assistance of such other steamships as may be approved by the minister) and from that time maintain for one year a regular direct steamship service between a port or ports in the Dominion of Canada and a port or ports in France, with the option upon the part of the contractors of extending each eastbound voyage to a port or ports in Great Britain as hereinafter defined with not less than three steamships, each of which shall not be less than 3,000 tons gross register, with a carrying capacity

of 4,500 tons available for agricultural products, merchandise and all other kinds of freight, each of which shall also be fitted with such amount of cold storage accommodation and under such regulations as the minister may require, and thereafter during the continuance of this contract to be at all times subject to the approval of the minister. The speed of the said steamers at sea when loaded and while so employed shall be during the term of this contract a minimum of not less than ten knots per hour, such steamer to be fully equipped in the most approved and modern style.

Ports of Call.

2. 'It is understood and agreed that during the season of open navigation on the River St. Lawrence covered by this contract, the terminal ports in Canada shall be Montreal or Quebec, and during the season of closed navigation on the St. Lawrence such terminal ports shall be Halifax or St. John, at contractors' option, subject to the approval of the minister; and it is understood and agreed that the ports of call in France upon each eastbound and westbound trip shall be Cherbourg or Havre, or both, at the option of the contractors, and each eastbound trip to be extended at the option of the contractors to a port or ports in Great Britain; provided, however, that in any event the first port of call after leaving Canada shall be a port in France and that the last port of departure for Canada shall also be a port in France.

Frequency of Service.

3. 'It is understood and agreed that the number of round voyages from France to Canada and return as herein stipulated during the continuance of this contract shall not be less than fifteen yearly; that is to say, that during the months of May to November, inclusive, in each year there shall be run not less than two full round voyages each month and during the remaining months of December to April, inclusive, the remaining voyages shall be performed; such service to be regular and uninterrupted with sailings on such fixed dates as may be approved of by the minister, and such dates shall be by the contractors regularly advertised at least two weeks in advance of every such sailing. It is further understood and agreed that at the option of the contractors the number of round voyages from France to Canada and return as herein stipulated may be increased to a maximum of thirty per annum, such additional voyages, if run, to be run regularly with sailings on such fixed dates as may be approved by the minister, and such dates shall be by the contractors regularly advertised as hereinbefore provided.

Subsidy: At the rate of $5,555.55 to $6,666.65 for each round voyage, but not to exceed $200,000 per Annum.

4. The subsidy is at the rate of $5,555.55 for each round voyage completed at an average speed of 10 knots, and $555.55 extra for each knot exceeding an average speed of 10 knots per hour, up to and including an average speed of 12 knots; provided, however, that the total amount of subsidy to be claimed or paid for the said one year's service shall not exceed the sum of $200,000, such subsidy being payable in quarterly instalments on the first day of each of the months of July, October, January and April, occuring during the continuance of this contract. Provided also that it is the true intent and meaning of these presents that the contractors shall have no claim to payment of any instalment of subsidy or any part thereof unless up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and unless all the provisions and stipulations

as to freight and freight rates and dates of sailing have been in all respects faithfully observed and carried out according to the true intent and meaning of these presents; it being understood and agreed that, in the event of any of the said steamers being at any time so disabled as to necessitate their being docked for repairs, the failure to perform the terms of this contract during such accident and the time reasonably occupied in such repairs, shall not be taken as a default or breach of the stipulations of this contract, or subject the contractors to deductions from the amount of subsidy, if any, payable for any voyage delayed in consequence of such docking for such repairs, but there shall be no claim for nor payment of any subsidy in respect of any voyage not actually performed.

Speed Calculations.

5. It is further understood and agreed that the average speed referred to in clause 4 shall be computed on the basis of the elapsed time of the round voyage, less delays by reason of fog and ice only, or in the case of heavy weather as hereinafter in this clause provided, and the distance shall be taken to be the actual mileage shown by the logs of the respective steamships.

(*a*) The average speed shall be computed to the nearest quarter of a knot in favour of the contractors.

(*b*) No additional subsidy shall be paid for a higher speed than 12 knots.

Notwithstanding any other provisions in this contract, no allowance for heavy weather shall be considered in calculating the speed during any one round voyage for any heavy weather delays less than a total of twenty hours; but the elapsed time shall be taken in calculating the said speed. In the case of any delays for heavy weather amounting to twenty hours or more upon any round voyage, the minister may in his discretion eliminate such additional time in calculating the said speed upon satisfactory evidence of such delays being submitted to the minister in writing.

Freight Rates.

7. 'It is hereby agreed that the rates charged for freights to or from any Canadian port included in this contract shall not exceed the rates charged by regular passenger steamers to or from New York, Boston and Portland, to or from the port of Havre, and the minister may at any time, if he deems it advisable, and after sufficient notice to the contractors, revise the rates to be charged on all classes of goods, such revision to be in all cases consistent with a fair and sufficient remuneration for the services performed by such steamers, and the contractors shall carry between the ports hereinbefore named, on all voyages of the said steamships employed under the terms of this contract, all freights that may be offered or that can be reasonably procured at rates which shall not be in excess of the aforesaid rates, and in no case shall any discrimination be made as regards rates or otherwise, directly or indirectly against Canadian merchants or shippers, who shall always have precedence for their freight and goods over all other merchants and shippers.

Freight booked to Halifax or St. John to be delivered to Intercolonial Railway.

7. SOME CLAUSES COMMON TO ALL CONTRACTS.

NOTE.—Some of the principal sections common to all contracts, and as such hereinbefore frequently referred to, read as follows:—

Proof of Performance of Service to be Furnished.

'The contractors shall furnish and establish at their own expense the necessary agents required for the efficient performance of this contract, and shall with diligence, as soon after the completion of each voyage as may be, furnish to the minister full and complete copies of the manifests of the cargoes and lists of passengers carried on each voyage, duly certified by the proper officers of customs, and also such other documents, information and evidence as may be reasonably required by the minister to show the volume, extent and value of the trade carried on by the said steamers, and the full performance on their part of the services, requirements and conditions of this contract in order to enable him to judge as to whether the terms of this contract have been or are being fully and faithfully carried out and complied with, within the true intent and meaning thereof, and his decision in that respect shall be binding, final and conclusive; and the furnishing of such certificates, documents and evidence as hereinbefore specified shall be a condition, precedent to the payment of the subsidy herein provided for, or any portion thereof, and if in the opinion of the minister, all the terms of this contract have not been fully complied with by the contractors he may deduct from the subsidy otherwise payable such portion thereof as he may deem fit

and proper, taking into consideration all the circumstances connected therewith, and the contractors shall at all times during the continuance of this contract well and faithfully abide by and conform to all such requirements as may be made by the minister with regard to the said steamers in the performance of this contract.

British Subjects.

It is further understood and agreed by the contractors, that two-thirds of the total number of officers, engineers, stewards, crew or other employees whatsoever upon the steamships engaged in the performance of the service herein contracted for, shall be British subjects, but the non-observance of this clause shall not constitute a violation of this contract in such individual cases as may from time to time be approved by the minister in writing.

Equipment of Steamers.

'The steamers to be employed as herein specified, shall at all times during the continuance of this contract be fully seaworthy, well-officered, manned, victualled, equipped, provided and furnished, having regard to the service which the contractors have hereby undertaken to perform; and shall have ample and suitable accommodation for the passengers, mails and freights to be carried over the routes specified; and shall, at all times, carry boats and life-saving appliances in compliance with the law, and shall be in all respects subject to the approval of the minister.

Accommodation for Mails.

'The said steamers shall be provided with sufficient and convenient accommodation and protection for all such mails, to the satisfaction of the Honourable the Postmaster General of Canada for the time being, and the contractors shall further take all reasonable and necessary precautions for the protection of such mails while upon the said steamers or while in the contractors' charge or custody, from loss, damage or injury in any way, and the contractors shall be responsible for any loss or damage thereto caused by negligence or want of proper care or accommodation on the part of the contractors, their agents or servants, or on the part of the officers, employees or crew on board the said steamers, and this without regard to any question as to the legal liability of the Postmaster General to the owners of the articles of mail matter contained in such mails for damage or loss sustained in transit.

Definition of term 'Mails.'

'The expression "mails" for the purpose of this contract shall be deemed to mean and include all boxes, bags, baskets or packets of or containing letters, post cards, newspapers, parcels, books, or printed papers, and all other articles which under the Post Office Act and postal regulations for the time being in force are transmissible by post in Canada, without regard to place either of origin or destination, and also all empty bags, empty boxes and other receptacles, stores and articles used or to be used in carrying on the post office service, or which shall ordinarily be sent by or to or from the post offices.

No Letters except H. M. Mails to be Carried.

'The contractors shall not, nor shall any of their agents or servants, or officers or crew of the said steamers receive or permit to be received on board of the said

steamers any letters for conveyance other than those contained in His Majesty's mails, or which are or may be privileged by law, nor the mails of any other country, except such as are specified by the Postmaster General of Canada, for the time being.

Government Officials to be Carried free of Charge.

The Honourable the Postmaster General of Canada, or the Honourable the Minister of Trade and Commerce for the time being, or any inspector or officer of the Post Office Department or of the Department of Trade and Commerce, who may in the execution of his duty travel in the said steamers, shall be carried free of charge.

Proper Accounts to be Kept.

The contractors shall keep full and proper accounts of and in connection with the working of this service, and shall keep such accounts separate and distinct from any other accounts of or connected with other branches of their business; and in any contingency which, in the opinion of the minister, may render such a course necessary, the contractors shall allow any officer or officers named by the minister free access to such accounts and all books, papers and documents connected therewith.

Substitutes for Disabled Steamers.

'It is understood that if the said steamer shall be by peril of the sea or other unavoidable casualty, lost, destroyed or temporarily disabled from performing the voyages herein agreed to be performed according to the true intent and meaning of these presents, the contractors may in such case as soon as reasonably may be, having regard to the circumstances, replace the said steamer by another of equal class, speed, equipment, character and capacity to the satisfaction and approval of the minister in case the said steamer has been only temporarily disabled, and continue the service herein contracted for with such substituted or repaired steamer with as little delay as possible under all circumstances.

Freight and Passenger Tariffs—Proof of Performance of Service to be Furnished.

'The contractors shall carry on each steamer running under this contract, according to its capacity, on all voyages, all the freight and passengers which may be reasonably offered or obtained, and at tariff rates, both as to passengers and freight, which may be from time to time approved by the minister; and the contractors shall furnish to the minister such documents, information and evidence as may be required by the minister, to show the volume, extent and value of the trade carried on by the said steamer, and such customs certificates, documents and evidence as may be necessary or as may be required by the minister to prove the performance of the service herein contracted for, and to enable the minister to judge as to whether this contract is being carefully and faithfully carried out and performed and the furnishing of such certificates, documents, information and evidence, as hereinbefore specified, shall be a condition precedent to the payment of the subsidy herein provided for or any portion thereof.

Deductions from Subsidy—Time-tables to be Furnished—Docking Disabled Steamers.

'Provided, however, that it is the true intent and meaning of these presents that no amount or instalment of subsidy shall be payable or be paid at any time, unless it appears to the satisfaction of the minister that up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been

fully and faithfully performed, and that all provisions and stipulations as to freight and freight rates and dates of sailing have been in all respects faithfully observed and carried out, according to the true intent and meaning of these presents; and it is understood and agreed to be a further condition of these presents that the contractors shall at least two weeks prior to the first sailing under this contract furnish to the minister time-tables showing the proposed sailings, and upon the same being approved by the minister, they shall be duly advertised in such manner as he may direct; and it is also agreed that in case either of the steamers herein named, or a substituted steamer sanctioned by the minister, does not sail from a terminal port as herein specified within forty-eight hours of the date fixed by such time-tables, there shall be deducted from the amount of subsidy payable for such voyage a sum equal to one-tenth of the amount otherwise payable for the performance of such voyage, and so in proportion for further delays or failure to sail from such terminal port. Provided, however, that the minister may authorize any vessel to sail either at an earlier or a later date than that specified in such time-tables should he for any reason deem it advisable to do so ; It being understood and agreed that, in the event of any of the said steamers being at any time so disabled as to be obliged to be docked for repairs, the failure to perform the terms of this contract owing to such accident and for the time reasonably occupied in the repair of the damaged steamer, shall not be taken as a default or breach of the stipulations of this contract, or subject the contractors to deductions as above from the amount of subsidy, if any, payable for any voyage delayed in consequence of such docking for repairs, but there shall be no claim for nor payment of any subsidy in respect of any voyage not actually performed.

Carriage of Mails.

'The contractors shall during the performance of this contract, convey on each and every trip of the steamers performing the aforementioned services, both on outward and homeward voyages, all such mails as shall be tendered to the proper officers or persons in that behalf on the said steamers by or on behalf or under the direction of the postal authorities of Canada, or those at the terminal ports or ports of call herein referred to, and shall deliver all such mails at their proper destinations at the terminal port or ports of call above referred to; and the expenses of carrying such mails from the post offices or railway stations to the steamers and from the steamers to the post offices or railway stations at the terminal ports and at the ports of call shall be borne by the contractors, who will be subject to all general and special regulations now or hereafter existing during the continuance of this contract in connection with the postal service. For the conveyance of all such mails no payment shall be made or required over or beyond the amount of subsidy herein mentioned or provided for.

Freight and Passenger Rates to be Approved by the Minister.

' The contractors shall at least three weeks prior to the first sailing under this contract, furnish to the minister a schedule of the freight rates proposed to be charged between the different ports on both east and west bound trips, which schedule shall be subject to the approval of the minister, and after being approved by him shall not be changed except with his consent ; and the minister may at any time, if he deem it advisable, fix the maximum rates to be charged on any article or class of goods ; and the contractors shall carry between the ports hereinbefore named, on all voyages of the said steamships employed under the terms of this contract, all passengers or freight that may be offered or that can be reasonably be procured, at rates which shall not be in excess of such maximum rates as fixed by the minister, should he deem it advisable to so fix such maximum rates, and in no case shall any discrimination be

made as regards rates, or otherwise, directly or indirectly, against Canadian merchants or shippers, who shall always have precedence for their freight and goods over all other merchants and shippers ; and it is agreed and understood that the freight rates on east-bound trips, sailing from or , as hereinbefore provided, on through bills of lading to from any place in the provinces of Ontario and Quebec, or from any Canadian points farther west, shall in no case be greater than from the same place to via any United States route or port; and on west-bound trips the rates from to any place in Ontario or Quebec, or other Canadian points farther west, shall be as favourable as via any United States route or port to the same place ; and it is further understood and agreed that the said steamers shall not carry between the ports of or and aforesaid, on any voyage run under the terms of this contract, either deals or lumber or timber to a greater extent than fifty per cent of the total quantity of the cargo carried on such voyage, and such quantity only in case other Canadian products are not offering or cannot be obtained. Provided. however, that in the event of other cargo not being obtainable, satisfactory evidence of that fact being furnished to the minister, then the contractors shall be allowed to make up the balance of the cargo with deals, boards or timber.

Calls at Foreign Ports. .

'The steamer employed in carrying out the provisions of this contract shall not on any of its trips call at any foreign port not specified in this contract.

Carriage of nitro-glycerine or dangerous articles.

'The contractor shall not convey or permit to be conveyed in any steamer while employed in this service any nitro-glycerine or any other article which in the opinion of the minister shall be considered dangerous.

Subsidy subject to vote of Canadian parliament.

'It is conditioned, declared and agreed that the payment of subsidy, as hereinbefore stipulated, is subject to the amount specified being provided for the purpose by a vote of the parliament of Canada, and that if no amount is voted for the purpose, or if any amount voted has become exhausted in payment thereof, and no further sum is voted for the purpose, this contract or agreement shall terminate and become void and of no effect, and the party of the first part shall not in consequence be held liable to damage.

Minister's right to terminate contract.

'It is declared to be the true intent and meaning of these presents, that the minister shall have the right at any time during the continuance of this contract, upon 30 days' notice in writing to the contractors, their successors or assigns, to terminate this contract, and every matter and thing herein contained, if it shall appear to the minister that there has been any breach on the part of the contractors, their successors or assigns, of any of the covenants, agreements, stipulations or provisions herein contained and entered into on the part of the contractors; and it is declared and agreed that the minister shall at all times be the sole and final judge as to whether there has been any such breach, and his decision shall be absolute, final and conclusive,

Assignment of contract.

'This contract shall not, nor shall any right or interest therein be assigned without the consent in writing of the minister to such assignment having been first obtained.

Canadian members of parliament not admitted to share in contract.

'It is a condition of these presents that no member of the House of Commons of Canada shall be admitted to any share or part of this contract or agreement nor to any benefit to arise therefrom.

Changes in contract.

'The minister may authorize any change or changes in the terms of this contract as may not be inconsistent with the vote providing for the payment of the subsidy.

Minister to be final judge as to full carrying out of contract.

'The minister shall at all times be the judge as to whether the terms of this contract have been or are being fully and faithfully carried out and complied with within the true intent and meaning thereof, and his decision in that respect shall be binding, final and conclusive.

COINAGE WEIGHTS AND MEASURES.

To assist in arriving at a comprehensive understanding of the value of foreign currencies, weights and measures (as expressed in foreign trade returns, tariffs, &c.,) as compared with those of Canada, tables have been prepared as follows:—

As regards those of Canada, the law provides that the denominations of money in the currency of Canada shall be dollars, cents and mills, the cent being the one hundredth part of a dollar, and the mill one tenth part of a cent.

That—The currency of Canada shall be such that the British sovereign (the pound sterling) of legal weight and fineness, shall be equal to four dollars eighty-six cents and two-thirds of a cent.

In like manner the law provides as respects weights, that the unit shall be the standard pound (avoirdupois) of 7,000 grains, one-sixteenth part of the standard pound shall be an ounce (437½ grains) one hundred pounds a cental, and two thousand pounds a ton, and that four hundred and eighty grains shall be an ounce troy, or 5,760 grains a pound troy.

As regards measures—that the unit or standard measure of capacity, as well for liquids as for dry measures, shall be the gallon containing ten standard pounds weight of distilled water weighed with the water and air at a temperature of sixty-two degrees Fahrenheit, with the barometer at thirty inches, that the quart shall be one-fourth part of the gallon, and the pint one-eight part of the gallon, and that eight gallons shall be a bushel.

This gallon commonly known as the 'Imperial Gallon,' contains 277·274 cubic inches, or 353·036 cylindrical inches.

The standard measure of length is the yard, one-third part of which it is provided shall be a foot, and the twelfth part of such foot shall be an inch.

In many countries the Metric system of weights and measures has been adopted. A separate table of Canadian equivalents of these is given in order to avoid repetition, the word 'Metric' being used in the general table in each case where the system is in vogue, as indicating a reference to that table.

The equivalent value of the monetary unit can only be given as respects those countries having a gold standard. Where silver is the standard, the value of the currency necessarily fluctuates correspondingly to the market value of silver bullion, and were any attempt made to quote the value of such currency it would, under present circumstances, be misleading, therefore, the weight in decimal parts of an ounce with the fineness of the coin is given instead, which will enable any one to approximate the value of the currency according to the current value of fine bar silver. As an example, say fine bar silver at 75 cents an ounce, the Bolivian dollar weighs ·801 of an ounce, its fineness is ·900, therefore $75 \times ·801 = 60·075$ which $\times ·900 = 54·0675$, or a small fraction over 54 cents, and the actual intrinsic value of the pure silver contained in the coin, to which should be added a reasonable allowance to cover the value of the alloy, the cost of the coinage, and in some instances exchange, the aggregate of which would be approximately the current value in Canadian currency of the dollar in question.

Unless carefully noted, the quotations as usually given of the current value per ounce of silver may be misconstrued and lead to misapprehensions, as it is sometimes quoted per ounce *fine*, and sometimes per ounce *standard*; thus for instance on a certain day the London quotation reads 'fine silver per ounce standard 32d.,' while on the same day it is quoted in New York '69½ cents per ounce fine;' as 32d. is equal to a fraction over 64⅞ cents, there would appear a difference of about 4⅝ cents per ounce between the two prices, the New York price appearing that much in excess of the other, were it not noticed that one is based upon *standard* fineness and the other upon absolute fineness, but by reducing the New York "fine" to London "standard" (of ·925 fine, or 444 grains fine to the ounce) the actual difference between the two quotations is found to be only about ⅝ of one cent per ounce, the London price being that much in excess of the New York.

To reduce the value of *standard* or sterling silver when expressed in pence to *fine* expressed in cents, multiply the pence and decimal parts thereof by 2·192.

To find the *standard* or sterling value expressed in pence and decimal parts thereof when *fine* is expressed in cents multiply the cents by 0·4562.

*Old weights and measures sometimes used. ‡ The values in Chinese Imperial Customs Returns are always given in Haikwan taels, which are relatively in value equal to about 1·113 Shanghai taels. The tael is in reality not a standard of value (there is no such coin), but of weight, and when used in the sense of a value it only represents its weight in gold or silver, as the case may be, the real difficulty is to establish its exact equivalent in grains. Authorities differ greatly, as also does the practice in different sections of China. The Chinese are far from being inexact, and the probability is that there exists a standard, and a further probability that it is equal to 10 Japanese mommes, or 579·72 grains, which figures have been used in computing the value as above. It will be observed, however, that these figures fall short about 3·61 grains from the weight usual (say 1¼ oz. per tael) in dealing with the weights other than those of gold and silver. §Usually reckoned same as Chinese Picul of 133⅓ lbs. ϕ This is long measure. Cloth measure is 25% greater in length than long measure. Therefore by cloth measure 1 sun = 1·4916 in. 1 shaku = 14·916 in. and 1 jo = 149·16 in.

TABLE of Constant Factors, which multiplied by the current value per ounce of silver either pure or standard as the case may be, will give the value of the silver contained in the coin referred to, to which if there be added a small percentage to cover the value of the alloy and the cost of coinage, the aggregate will equal the intrinsic value in Canadian currency of the coin in question.

Note :—The statistics which prior to the March 1, 1906, related to the "Zollgebiet" or Customs Union, now cover the trade of an enlarged area known as the "Wirtschaftsgebiet" or Economic Union, in which the Free Ports of Hamburg, Cuxhaven, Bremerhaven and Geestemunde are included. The trade with these ports accordingly disappears from the statistics from that date.
